You'll also be asked to use the toilet to empty your bladder. Radiation exposure during pregnancy may lead to birth defects. Use words your child can understand and let your child ask questions. Articulate the basics of vascular resistance determinations. Mullins then goes into specific interventional catheterization techniques, such as atrial septostomies, septectomy, balloon dilatation, mitral valvuloplasty, coarctation dilatation branch pulmonary artery and pulmonary artery stenosis dilatations, and intervascular stents. For some people, having to lie still on the cardiac cath table for the length of the procedure will decide which method is best for you.
