CULT-URE: Ideas can be dangerous by Rian Hughes Culture is your local consensus reality; your clothing, cuisine and hairstyle, the music you listen to, the films you see; your values, ideas, beliefs and prejudices. Accordingly, selection can be generally taken to mean preferential interaction of any object with its environment—a more liberal interpretation that also helps widen our view of evolution. Complexity itself consequently creates the conditions for greater instability, which in turn provides an opportunity for greater reordering.
